

# Advanced Cytometry Course

A Satellite Symposium of the 4<sup>th</sup> European Congress of Immunology  
ECI, Vienna, Austria

September 6, 2015  
9:00 - 16:00 h

*This advanced course on flow cytometry will provide the participant with lectures by experts in the field covering various aspects of flow cytometry from instrumentation to multiparameter analysis and detection of rare antigen-specific cells. Problems and pitfalls of flow cytometry will be discussed and can be experienced first-hand in practical exercises.*

## preliminary program

09:00	Hyun-Dong Chang, Berlin	Introduction
9:30-10:15	Diether Recktenwald, Reno, USA	Technologies: Which technology to use when
10:15-11:00	Andreas Grützkau, Berlin	Cytometric Immunophenotyping
11:00-11:45	Alexander Scheffold, Berlin	Detection and analysis of antigen-specific T cells
11:45-12:30	Hyun-Dong Chang, Berlin	Controls and gating
13:30-16:00	all speakers	Practical exercise
